# **Cypress Landing Master Home owners Association**

## **Vice President's Award 2009 Annual Meeting**

The committee chosen to receive the Vice President's award for 2009 has diligently worked to enhance the quality life for the residents of Cypress Landing. As they all work together on their primary goal, they have also provided the community with an opportunity to meet new friends and socialize with old friends. All of this they do while raising our appreciation and enjoyment of the arts.

They have brought to our Bay Club lounge visual art exhibits, singers, dancers, musicians and comedians throughout the area and from as far away as New York City. However, the ones we appreciate most are the performers from our own Cypress Landing community.

This committee has also enhanced our education. They have brought us Civic War re-enactments, wine making and tasting, an update on the yellow monster which is building the Highway 17 bypass, discussions on healthcare issues, the history of the area and other subjects too numerous to mention. In addition, they have assisted in the effort that has provided a Cypress Landing scholarship fund at Beaufort Community College.

By now you have probably guessed this award is being presented to the Cultural & Education Committee. This committee has demonstrated an imaginative and positive, can-do spirit that has brought the community not only entertainment but education as well. They are an outstanding example of the volunteer spirit that makes Cypress Landing a special place to live.

I now ask Mary Lavin and Eleanor Broderick to come forward to accept this award on behalf of the committee. While they are coming forward, would the rest of the committee stand and be recognized.
